DETAILED ACTION

Certificates of Correction Required

1. This application is the third reissue on parent patent U.S. Pat. No. 5,805,006. The first reissue application being S.N. 09/609,007 (now RE37739) and the second reissue application being S.N. 09/950,086 (now RE38455). As noted in MPEP 1451, 37 CFR 1.177 (a) requires that each reissue application must contain, as the first sentence of their respective specifications, a cross-reference to the other reissue applications. As noted in MPEP 1451, Certificates of Correction must be initiated in the parent reissue patents before the pending reissue application can be issued.

Consent of Assignee Improper

2. It is also noted that the declaration and the Consent of Assignee filed on 7/8/03 are just copies of the same papers that were originally filed in parent reissue S.N. 09/609,007 (now RE37739). This is improper as indicated in MPEP section 1451 (a new declaration and a new Consent of Assignee is required).

Oath/Declaration Defective

3. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1451, the last two paragraphs in particular. A new oath/declaration is required. It is also noted that the original oath/declaration is insufficient because of the extensive amendments made to the claims since it was originally filed (i.e., an updated oath/declaration is needed).

Claim Rejections - 35 USC § 251

4. Claims 47-114 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect in the oath/declaration is set forth in the discussion above in this Office action.
